

## Educational Effectiveness - 2016-2017

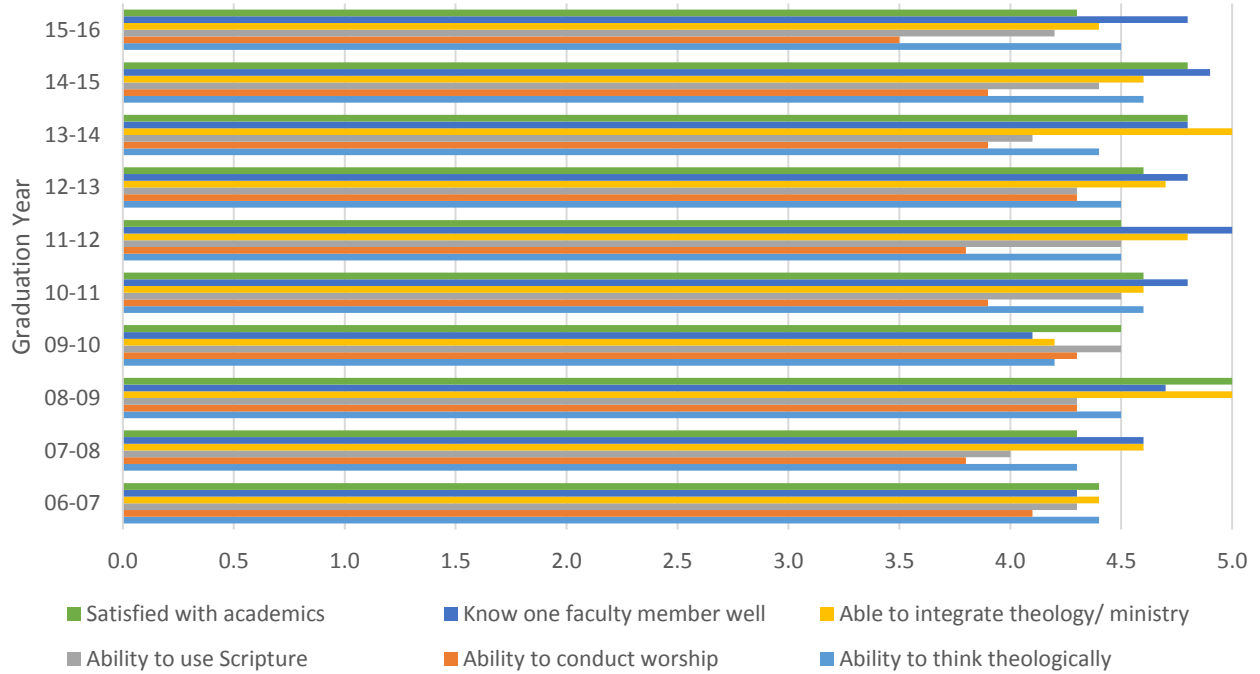

The purpose of Logsdon Seminary is to prepare servant leaders for Christian ministry through an academically challenging theological education centered on the Lordship of Christ, guided by the authority of Scripture, and focused on the global mission of the church. The seminary's commitment to achieving this purpose is deep and profound, with the result that this purpose shapes every aspect of our work. In order to measure our effectiveness with regard to achieving this education goal, Logsdon Seminary engages in a wide variety of assessments. Some of the key measures of our educational effectiveness are described in this section: (1) the rates at which students graduate from programs, (2) the number of students who obtain ministry positions, (3) student satisfaction with the seminary, and (4) gender and race of students.

Logsdon Seminary admits students who have demonstrated academic ability through their baccalaureate programs; who have evidenced a call to Christian ministry as indicated by their personal testimony, references, and church endorsement; and whose ministry goals align with the ethos and objectives of Logsdon. Logsdon prepares students at its main campus in Abilene and at the extension campuses in Corpus Christi, Dallas-Ft.Worth, Lubbock, McAllen, and San Antonio. The following charts report various quantifiable measurements of educational effectiveness. For more information, contact the office of the Associate Dean for Academics.

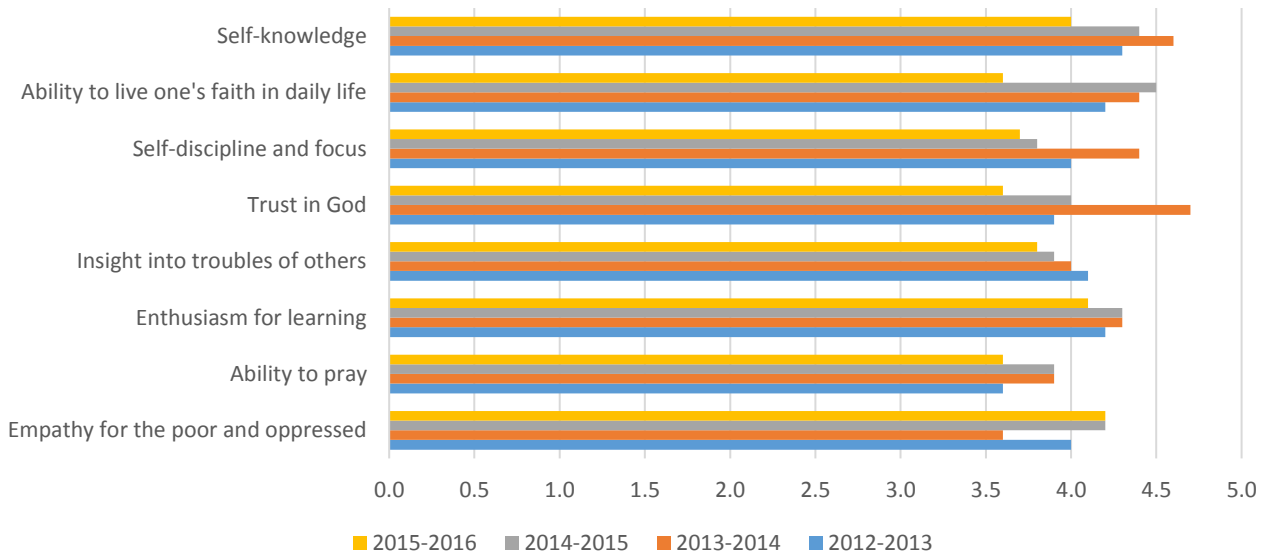

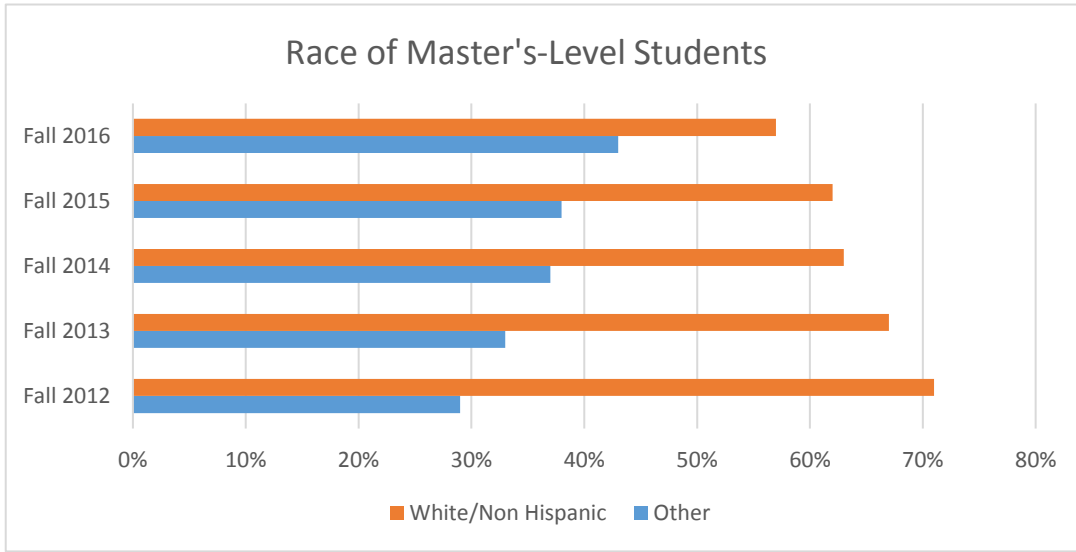

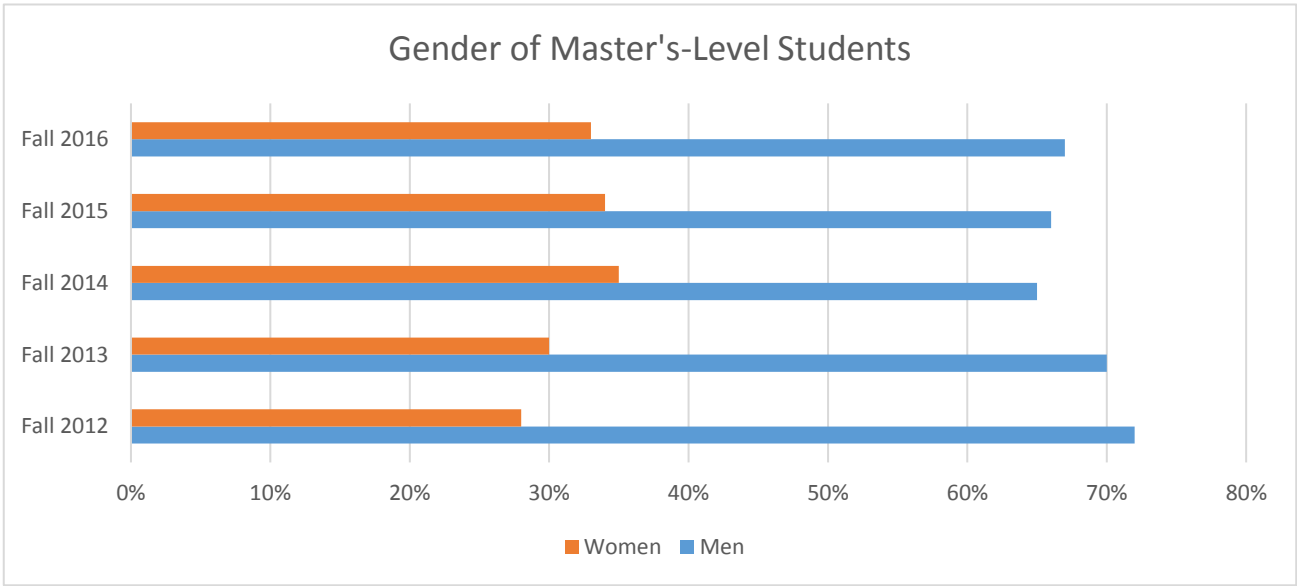

### Graduates' Satisfaction with Academic Program (1-Strongly Disagree 2-Disagree 3-Neutral 4-Agree 5-Strongly Agree)

### Graduates' Evaluation of Spiritual Growth (1-Strongly Disagree 2-Disagree 3-Neutral 4-Agree 5-Strongly Agree)

In 2016-2017, Logsdon Seminary's Doctor of Ministry program reflects the following enrollment demographics:

- (1) 81% is White/Non-Hispanic, and 19% Other Races
- (2) 95% Male, and 5% Female.
